

	Tell the time to 5 minutes and draw hands on a clock to show these times Estimate and read time with increasing accuracy to the nearest minute								
	Compare and sequence intervals of time Record and compare time (seconds, minutes and hours); use vocabulary such as o'clock, am/pm, morning, afternoon, noon and midnight; compare duration of events								
Geometry	Identify lines of symmetry on a 2D shape								
	Draw 2D shapes								
	Identify/describe the properties of 3D shapes including the number of edges, vertices and faces								
	Make 3D shapes using modelling materials; recognise them in different orientations; describe them								
	Recognise angles as a property of shape or a description of a turn								
	Identify right angles (linked to turns); identify whether angles are greater than or less than a right angle								
	Identify horizontal and vertical lines and pairs of perpendicular and parallel lines								
Statistics	Interpret and present data using bar charts, pictograms and tables								
	Solve 1 step and 2 step questions using information presented in scaled bar charts, pictograms, tables								

Notes:
