

Year 3 Newsletter 12

Friday 29th November

Dear Parents/Carers,

In Literacy this week, we have continued our unit of work on Quest stories. The children used lots of impressive vocabulary to describe the knight and the dragon's cave. They were excited to learn that they will become authors and write their own Quest story soon. They have lots of ideas already!

In Numeracy, we have moved onto solving column subtraction questions with exchanging and the children have continued working hard to ensure that their work is presented clearly and neatly. We have also had a fluency focus of 4x tables this week as this is one of the Year 3 times tables.

In CCL this week, we have been focusing on Switzerland and using this as a focus for our research. We have found out information such the population and climate of Switzerland as well as the human and physical features which can be found there.

Well done to those children who have brought in their self-studies based on their family around the world. We look forward to spending some time next week looking at each other's in detail.

Thank you to those who have sent in jars filled with goodies and other items for the Christmas Fayre on Tuesday. You can still leave your preloved items at the office.

Thank you,

Miss Tingle and Mrs Hirst.
