

Year 3 Newsletter 4

Friday 2nd October

Dear Parents/Carers,

In Literacy this week, we have been continuing with our text based unit. We have looked at Chapter 3 of the Worst Witch where Mildred cast a spell on Ethel as a result of an argument between the two characters. We then worked as group to plan our own argument and we acted these out in groups.

In Numeracy, the children have been finding 10 and 100 more and less than a given number and reasoning using mathematical vocabulary. They then extended their learning by completing some problem solving activities such as finding numbers which could be in between two given numbers.

Puppet making has been the focus during our CCL lessons this week. After designing their own puppet, the children then made a prototype out of paper so they could make sure their puppet would be the right shape and size. Next week, we will investigate and test suitable fabrics.

In Science, the children have been learning about how light travels and have been explaining how we are able to see different objects.

Many thanks,

Miss Stephenson and Mrs Ollerenshaw
