

At Woodhouse, the Catch Up funding of **£33250 (forecasted spend £39297)** will be used to support pupils to make up for lost teaching and ensure that pupils are getting back on track. It will also enable the school to be implementing the normal school curriculum as soon as possible. High quality teaching for all should reduce the need for extra support, but it is likely that some pupils will require high quality, structured, targeted interventions to make progress. These interventions should be carefully targeted through identification and assessment of need. We also anticipate that pupils with SEND will need specific support in the academic year ahead.

Governors will scrutinise the school's approach to catch up and the allocation of funds at the Governors' Standard Committee meeting on 14th October, and in the spring and summer terms. This strategy has been developed with regard to the EEF Guide to Supporting School Planning (August 2020).
