

Friday 25th 2021

Dear Parent / Carer,

In English, we have written our own letters to invite Beegu to Woodhouse. Using adjectives, we have described our school in the hope that Beegu may pay us a visit next week.

In Maths, we have continued to use clocks to make o'clock and half past times. We have also begun a new unit on position and direction. Using positional language, we have described an object's location. We will continue with this next week.

In CCL lessons, we have been completing quizzes about all of the facts we have learnt to far this year. We are really pleased with how this important knowledge is 'sticking' in the children's memories. We will continue to re-cap this knowledge throughout the remainder of the year to ensure that it can be remembered easily by all children. Here are some examples of the quiz questions:

History Geography Art DT RE PSHE

4. Name the 4 countries in the UK:

E
W
N
S

History Geography Art DT RE PSHE

5. Which is the capital of England? Tick one

Spain	Scotland	London
-------	----------	--------

History Geography Art DT RE PSHE

6. Where is the North Pole?

Africa	The Arctic	England
--------	------------	---------

In Computing, the children have been introduced to spreadsheets. They have learnt these can be used to organise information for events, menus, gift ideas and many other things. So far, the children have learnt how to input text and images into the cells. We have been very impressed with all children's abilities when navigating the keyboard and mouse.

Many Thanks

Miss Vine and Miss Hepworth
