

Dear Parents/Carers,

In English this week, we have been using fronted adverbials (sentence openers for time, place and manner) to create a piece of writing focusing on Mildred Hubble's broomstick adventure. Next week, we will continue this extended piece of writing and then will be focusing on editing skills before moving on to a short unit on performance poetry.

In Maths, we have been comparing numbers using the language **greater than, less than, equal to** and the related symbols $<$, $>$ and $=$. Next week, we will be ordering numbers with up to 3 digits. The children have now received their TTRockstars log in details which means they can access this exciting platform at home and improve their times tables knowledge whilst joining in with exciting in-school competitions. The log in details have been stuck in the front covers of homework diaries.

In History, as part of our Viking topic we focused on the means of transport that the Vikings used to travel from Scandinavia- the longship. As well as learning about how longships were designed, we created our own models and completed research activities using different sources. In Outdoor PE, we are developing our basketball skills and in Indoor PE we have now planned the warm-up and cardio sections of our own fitness videos. We are looking forward to recording these over the coming weeks.

Finally, we would like to remind parents and carers that reading packets containing reading diaries, reading books and homework diaries **must be brought in to school each day.**

Many thanks,

😊 Miss Stephenson and Mrs Ollerenshaw 😊
