

In English this week, we began our writing by describing the main character from the 'Good Knight' video clip. We are now writing our own quest which involves a queen, a hero or heroine, a villain and a very large diamond! We will soon begin a new unit on diaries.

In Maths, we have been solving problems using the column method for addition. Next week, we will be completing assessments before we move on to learning the formal written method for subtraction.

Our new topic in Science is Forces and Magnets. The children have already conducted investigations into the forces of friction and gravity.

In RE, we learnt about the Seder plate and what the contents of this represent to people of the Jewish faith when they are celebrating Pesach (Passover).

We are all looking forward to our trip to York on Monday 22<sup>nd</sup> November. We will be walking from one site to another so children will need to be able to carry their own lunch and drink- a small rucksack would be useful though this is not essential. They can wear comfortable footwear and trousers but must still wear their school polo-shirt and school jumper or cardigan. **Please do not send reading packets/reading books/homework diaries into school on Monday.**

**SWIMMING-** Please can towels, costumes, trunks, goggles and swimming hats be labelled with your child's name.

We would also be very grateful for any items to put in our Christmas Hamper raffle. Items can be given to your child's class teacher.

Miss Stephenson and Mrs Ollerenshaw 😊
