

In English this week, we wrote our own short stories based on Cressida Cowell's 'How to be a Viking'. This linked well to our RESPECT curriculum as we thought about our own fears but then considered the beautiful things that surround our fears. After the half term, we will be focusing on punctuating speech in our writing.

In Maths, we have been adding hundreds, tens and ones. We are excited to move on to learning the column addition method after the half term break. We will start by using the column method with no exchanging.

$\begin{array}{r} 534 \\ + 45 \\ \hline \hline \end{array}$	$\begin{array}{r} 213 \\ + 62 \\ \hline \hline \end{array}$	$\begin{array}{r} 304 \\ + 84 \\ \hline \hline \end{array}$	$\begin{array}{r} 672 \\ + 16 \\ \hline \hline \end{array}$
---	---	---	---

In PE, we performed and recorded our fitness videos. As we conclude our Viking topic, we have also been completing our timeline artwork to be displayed in the hall. In the second half of the Autumn term, we will be starting a new Geography topic called 'Around

the World.'

We would like to remind parents that the first set of Year 3 statutory words will be tested shortly. These are listed below and were also stuck in homework diaries in September.

circle	quarter	forward	length
eight	weight	height	eighth

Have a safe and peaceful break,  
Miss Stephenson and Miss Parker 😊
