

In English this week, we read a story from our 'Stone Age Tales' class text about Noah's Ark. We then explored expanded noun phrases and thought of some exciting adjectives to describe nouns from the story.

In Maths, we began by using the column addition method to solve a range of addition problems. We then moved on to using the column subtraction method to subtract 2- and 3-digit numbers.

476 - 24 = 452			852 - 31 = 821				
H	T	O		H	T	O	
4	7	6		8	5	2	
-	0	2	4	-	0	3	1
<hr/>				<hr/>			
4	5	2		8	2	1	
<hr/>				<hr/>			

Our new topic in Science is Forces and Magnets. We started by talking about friction and the direction in which friction works. The children then began an investigation to find out how the force of friction changes depending on the surface which the object is travelling along.

In RE, we continued to learn about the celebration of Shabbat. We recapped on the events that take place during Shabbat before thinking about the synagogue and the different artefacts and objects which may be found there.

We wanted to say a big thank you to all those who have kindly donated food items for our harvest collection. The deadline to bring these items into school is **Tuesday 14th November**.

Miss Stephenson and Miss Parker 😊
